

The First 1000 Days Developing The System

The Public Service Board needs **your valuable insight** in to this key development stage, to help plan better services and to ensure that every child has the best possible start in life.

When: Monday 25 June 2018
Time: 10:00 – 15:30
Venue: Hawthorn Leisure Centre CF37 5LN

The First 1000 Days of life, from pre-conception to age two, significantly influence the outcomes for children, parents and families throughout the life course and from generation to generation.

The First 1000 Days is one of the immediate priorities for Cwm Taf Public Services Board's [Well-being Plan](#).

This event will bring together a wide range of stakeholders who will develop a shared understanding of the issues surrounding this period of life, including the prevention of adverse childhood experiences (ACEs). The event is an opportunity to explore such questions as:

- Are we doing enough of the right things at the right time to get the best outcomes?
- Are we making the most of opportunities to help parents achieve what is best for their children?
- Can we work better across service boundaries and in sharing information at the earliest possible opportunity, if we have concerns?
- Are we identifying and responding early enough to risks before they become established problems?

The event is being led by **Professor Marcus Longley**, Chair of the Public Services Board, **Lynda Williams**, Director of Nursing and **Ann Batley**, Lead for the Children and Young People's Strategic Partnership in Cwm Taf.

For further information or if you have any questions about this event please contact Daniel Clayton, Cwm Taf Local Public Health Team:
